### Minister of Education Takes Precautions Against Fire.

Premier Whitney Stirs Up the Members—Fire Drill To Be Compulsory in All Schools—To Expatriate Land For Sanatoria—Two-Cent Rate on T. & N. O. Railway—Mining Companies in 1906.

Toronto, March 2.—This appeal of the Prime Minister, Hon. J. A. Macdonald, at the close of the sitting on Thursday night for greater activity and less lethargy on the part of the members at the week-end, brought admirable results. A good deal of business was transacted in a comparatively short time. The budget debate gone yesterday, the budget debate gone yesterday, and the order paper was tackled with a vim that surprised the old-time habitues of the House. The Prime Minister himself is an indefatigable worker and he has the happy faculty of rousing the energies of those about him. "We want no hasty legislation," he declared, "but we want no time wasted." So it was that Friday afternoon, despite the fact that the Liberal benches were almost empty.

To Protect the Children. Hon. Dr. Fyfe, the Minister of Education, announced that the Education Department is providing by definite resolutions for the protection of the reputation of the recent recruits Montreal, Quebec, and the other provinces. Hon. Dr. Fyfe (Grand) drew attention to the disaster in the eastern metropolis and indicated his own as the loss of the kindergarten and junior class on the upper floor of the building, facing construction, and the use of adequate fire escapes and the need for fire drills.

Hon. Dr. Fyfe said the matter had already received the consideration of the Department. It was proposed to provide proper protection to all living in the regulations. At present this fact is in the line of the most excellent results had followed the training of the fire drill. In the schools of Ontario, Quebec, St. Thomas and Windsor particularly, it had been accomplished with remarkable success, one of the largest schools being cleared of pupils in less than sixty seconds. Hon. Mr. Whitney expressed his personal gratification at the results achieved. To his mind the fire drill in the schools was one of the most important factors and worth all the fire escapes imaginable.

Sanatoria For Consumptives. Mr. J. F. Downey (Wellington) introduced a bill amending the act providing for the erection of municipal sanatoria for consumptives. The act in question makes provision for the appropriation of property for the erection of a sanatorium in cases where two or more municipalities unite for that purpose. By an evident oversight, Mr. Downey omitted the same powers are not conferred upon a single municipality entering upon the enterprise. At present municipalities enjoy expropriation privileges for the purpose of isolation hospitals. The object of Mr. Downey's bill, which passed in first reading, is to confer on each single municipality similar powers where it is desired to erect a consumptive hospital.

Two-Cent Rate. Mr. Pease (Kingston) asked if it was the intention to establish a two-cent per mile passenger rate upon the Tomahawk and Northern Ontario Railway, and to provide for it in the railway bill now before the House by the Legislature.

Mr. Pease pointed out that the query entailed a matter of Government policy, which would be answered by later declaration.

Gillies' Limit Rights. In response to an enquiry from Mr. Lahore (Prescott), Hon. Frank Cochrane, Minister of Lands and Mines, gave some interesting information regarding the Gillies' Limit. The Government had not, he said, received any bona fide offers for the mineral rights in the Limit or any portion of it, nor was it the present intention of the Government to parcel it out and sell or lease it. Neither was it the intention of the Government to incorporate the Limit into prospectors.

Mining Companies in 1906. Mr. Pease secured an order of the House for a return showing the number of mining companies incorporated in the year 1906, also total amount paid to the Treasury Department from incorporation of mining companies in 1906, including income to companies previously incorporated. The second reading of a number of local private bills concluded the session.

To Assist Firemen. Toronto, March 2.—A deputation representing the volunteer firemen of the province waited on Hon. Mr. Macdonald yesterday in aid assistance for

## Cash Business

It is scarcely necessary to call attention to the advantages both to buyer and seller of the CASH SYSTEM of doing business which is now so universally recognized to buy is able to do much better for his customers than those doing a credit business with its necessary losses including office expenses, bad debts, interests, etc. Where an extended credit business is done, those who pay their bills promptly are made pay for the losses incurred by those who buy goods and fail to pay for them.

It is our intention to adhere firmly to the CASH SYSTEM and we rely on our customers to assist us in carrying this principle which is advantageous to both.

Standing as we do directly between the world's largest producers and the consumer, it is our determination to make our service the most efficient to be found in CANADA. This can only be accomplished by buying and selling our goods for prompt CASH.

Corona as Wrecked  
Thrilling Work of Saving Lives  
Of Passengers and Crew.

One Sailor Drowned—Vessel Had 100 Passengers On Board—Struck On Humboldt Bar During Heavy Gale—Heroes Attempt To Fasten Life Lines—Boats Were Swamped and Capsized—Captain Last To Leave.

Corona, Cal., March 4.—The steamer Corona (Captain Boyd), the best boat in the Pacific Coast Steamship Co.'s service between Burma and San Francisco, lies straddling the north jetty on Humboldt bar, a hopeless wreck.  
With nearly 100 passengers aboard, the vessel struck on Saturday as Captain Boyd was attempting to get out of a stinging wind and terrific bar flood, to drive her into port.  
Women were hysterical and men were in panic, but reassuring words from the crew finally brought calm.  
Assembled On Deck.  
The passengers assembled on the burning deck where they remained until the rescue work was undertaken a few hours later.  
Soon after the ship struck a host in charge of Quartermaster Gunn was lowered. It contained three of the crew and three stowaways. Passengers This boat capsized at once in the bay, and the ball of fire from the wrecked ship was seen.  
A second boat in charge of Second Officer N. V. Johann, was put off, badly battered and leaking, this boat reached shore.  
Tried To Carry A Line.  
Then T. R. Sothorn, night sailorman, launched a marine in the United States navy, stripped to the waist and attempted to carry a line ashore. The line parted before he had gone far. Sothorn was picked up by the crew.  
Several attempts were made to throw a line to the ship, but the line fell short.  
Finally Capt. Hennig of the life-averger reached the side of the Corona and picked up the line. Several unsuccessful attempts were made to work the life boat, but it was not until near dark that Capt. Hennig and his men worked effectively. At that time the ship's boats had been wrecked, and at dusk Capt. Boyd, the last to leave the ship, stepped ashore.  
The passengers were brought to shore. Nearly all had been drowned, and some were suffering greatly from the cold, exposure and nervous shock, and all will recover.  
San Francisco, March 4.—The steamer Bonanza, the first boat to reach the steamer Corona when the latter was wrecked at the entrance to Eureka harbor, Saturday, arrived yesterday. Captain Dunham blames the United States lightship board for the wreck. There have been four life-boats wrecked on the Humboldt Reef during the year. The Newbury, Corinthian, Sequoia and Corona—and Captain Dunham declared that all might have been averted if the lightship board had had the channel properly buoyed.  
Deaths Arrive at Tokio.  
Yokohama, March 4.—The Great Northern steamer Dakota went ashore in the Bay of Tokio last night. All the passengers are safe, and the agents are hopeful of saving her.

**STEWARDS IN ICE.**  
P. E. I. Ferries Are Caught and Have Narrow Escape.  
Charlottetown, P. E. I., March 4.—The winter steamer Stanley, bound to Prince Edward Island, stuck in the ice one mile from Pictou Island and had a narrow escape from destruction yesterday. The running ice almost laid her on her beam ends, breaking all the rails on the port side. So serious was the situation that the captain landed forty passengers, including the Algonquin hockey team, and Jere Makluff Comedy Co., on Pictou Island. Early in the day fourteen passengers, mostly sturdy lumbermen, were the latest shipwrecked. Fifteen miles distant, over heavy ice, arriving at Pictou, the ship was stuck in the heavy ice near the Stanley. Both are out a week and are likely to remain for several days yet. In the meantime communication will be kept up by small boats hauled by hand between the ships.  
**ATTACKED BY WOLVES.**  
Two Men Have Narrow Escape From Pack of Hungry Animals.  
Watson, Sask., March 4.—While engaged in erecting a dwelling north of Bannville, two men, by names Bailey and Bannville, were attacked by three wolves. The leader sprang at Bailey's throat, but he encountered an upper cut that sent the animal back. The latter would not work but was used eventually as a club. Bailey defended himself in like manner with a bit of wood. At last an opportunity was had to charge cartridges and Bannville shot the wolves.

**NEW YORK FRIGHTENED.**  
Dynamite Explosion Awakes Thousands and Shakes Sky-scrapers.  
New York, March 4.—A dramatic magazine blew up at the Pennsylvania Railroad building, near the Waldorf Hotel, N. Y., yesterday, affording a scene of employees, and breaking nearly two hundred windows in the building and at Union Hill.  
It shaking the skyscrapers perceptibly. The explosion was heard from the city, from sleep and badly frightened. Hounded in four miles from Hoboken.  
Valentin's Valued Threat.  
Rome, March 4.—Authorities of the Vatican day with emphasis the charges contained in a semi-official statement of the papal secretary that Mr. Montanini, the expelled secretary of the papal nunciature, was active in 1910 in the arrest of the King of Alfonso of Spain to Paris.  
Commenting on the Statue of Liberty for the action of the French Government in making public the documents sequestered at the time of the explosion of St. Mark's Basilica, the Italian and anti-British attitude of the French Government.

### TIMELY TOPICS.

#### HOW HAVE YOU DECIDED MY DUTY?

(R. E. Kiser.)

Have you chosen the route you shall take through the year?  
Is it time you decided, ay boy?  
You may march with the crowd or you may lead the world out of its slumbering.  
You may find the world cold and be warmed by its cheer.  
You may wisely choose to destroy the world and live through its glorious days.  
You may stay with the lay in profane ways.  
Or bring your soul to be worthy of praise!

How have you decided, ay boy?

Are you going to face without fear what you must?

Have you heeded your banner, my boy?

Have you made up your mind to be worthy of truth?

To stand for your rights and to dare to be just

In the stress and the strife and the joy?

You may hide in dismay at the end of the year.

You may feel that the earth is all barren and dead.

Or the world may be fair and the skies may clear!

How have you decided, ay boy?

Mr. H. C. Clements, member for the House of Commons, delivered the address before the South Essex Conservative convention that the Government at Ottawa was "the most corrupt in the world." This is a very much. But is it an exaggeration?

Bill giving Rhode Island women the power to vote for Presidential electors was passed in the State Senate last week at Providence by a vote of 12 to 4.

The prevailing fall among American girls, and women of good homes in public even in cities, does not prevail in Europe, says a U. S. girl. There, a husband's name is assumed to be a servant or a factory girl.

The Government will certainly have some success in the carrying out of the new pension programme as announced by Hon. Mr. Hanna. He estimated that an auxiliary pension is to be established at some point in northern Ontario, where the pension will be employed in agricultural work and in the work of roadmaking. Such an arrangement, says the Hamilton Herald, "is far better for the pensioners as well as for the public, than the sale of their labor to contractors, to be employed in indoor machine work."

A writer in Good House-keeping says that the general women of our country had been ill with the influenza through working on the concrete floor of the church basement, preparing packages and distributing them to the public, than the sale of their labor to contractors, to be employed in indoor machine work."

## Harry Law's Case Dubious

Dr. Evans' Cross-Examination By Jerome Completed.

**Five Days' Questioning by District Attorney Fails to Ensnare Alibiist Into Admission That Prisoner is Still Mad—Expert Admits Thaw Knew What He Was Doing at the Time of the Murder.**

New York, March 3.—After five days of tiresome cross-examination, in which he barely protected the interests of the defence, Dr. Evans left the witness stand in the Thaw trial yesterday, subject to recall for re-direct and re-cross-examination. The insanity expert appears to have been quite a match for the attorney-general, who displayed to much intimate medical knowledge during his famous grilling of Dr. Wiley, the Pittsburgh alibiist.

Dr. Evans was succeeded on the stand by Dr. Charles O. Wagner of Birmingham, N. Y., who accompanied him on most of his visits to Thaw in the Tombs.

Dr. Evans admitted yesterday that Thaw had no insane knowledge of what was doing on Madison Square roof garden the night he killed Stanford White.

The New York statutes prescribe that, to be exempt from punishment for crime, an insane person must have been so demented as not to know the nature or quality of his act.

In explaining Thaw's actions subsequent to the shooting—his quiet demeanor, his direction as to what should be done with his wife, and how he should be sent forward, Evans declared that, as soon as the defence took Stanford White, the "crazy storm" subsided and his senses began to reorganize themselves so that he knew quite well what he was doing.

Map showing location of the Silver Mountain Mine beside the University Mine.

The Property of the Cobalt Silver Mountain Mining Company, Limited, is located in the heart of the richest silver belt in the world, and consists of twenty acres.

It is surrounded, by five of the best and richest shipping mines in the Cobalt camp, viz., The University, Bailey, Big Pete (or Cobalt-Central), McKinley-Darragh-Savage and Silver Bar Mines, and it is also adjacent to the famous Gilles Timber Limit and only a few hundred feet from the Nipissing and Foster Mines, as shown on the map.

The Silver Mountain Co. has the best located and most promising undeveloped property in the Cobalt camp to-day and the men most largely interested in the company comprising some of Cobalt's largest mine owners and some of the best-known and most influential men throughout Canada, including over a dozen members of parliament, confidently expect that

## THE SILVER MOUNTAIN CO.

Will Be Just as Large a Shipper as the Mines Adjacent to it in a Few Months

Mr. C. E. Kingswell, one of the best engineers in the Cobalt camp has made an extensive report on the property, and the company will gladly send a copy of same to anyone interested, upon request. He says in his report among other things:

### ENGINEER'S REPORT

"Your lot is within one lot of and surrounded by the Foster, Big Pete and the McKinley-Darragh-Savage Mines and within two lots of the Nipissing, all of which are among the most famous mines in the camp. The property lies wholly in Diabase, and has thirty-eight veins so far discovered, and these veins form a perfect network all over the property. I carefully assayed this property some time ago, and never failed to get silver in any assay I took. The famous timber limit lies immediately southeast of this property, and borders it, and upon this limit the government are now working a very good mine, and this mine lies only a short distance from your property. Near your property and the timber limit a good small ledge was discovered last June by the foreman of the Silver Bar Company, and this lead runs directly into your property. I know veins on your property that carry very much better ore than ever the Big Pete did at the start and no attempt has been made to follow these leads down. One ledge on your property has been explored for four hundred feet, and this ledge in places is quite four inches wide and it carries nine ounces of silver to the ton. Every ledge upon your property has good true walls, and they are all free from the walls and have every sign of permanency and value; and my humble opinion is, that if a shaft was not down to a reasonable depth good paying ore would be found, and you could cross-cut to strike other ledges. I have explored and reported upon most of the good mines here and also upon a large number of prospects, and have never yet inspected one with as many leads as yours has and I consider that it would be a freak of nature if your claim does not prove a good payable one. The fact that the Bailey Mine, which adjoins your property, and the Big Pete Mine, which is within one lot, are both located on this same Diabase hill on which your property is, and the fact that they are two of the best mines in the camp, is one of the strongest proofs to my mind that your lot will be found to contain the same kind of ore as is being shired from these mines."

—C. E. Kingswell, M.E.

THIS IS A CHANCE OF A LIFETIME.

THE PROPERTY OF THE SILVER MOUNTAIN CO. HAS NEVER BEEN DEVELOPED, THOUGH SOME

### Thirty-eight Veins Carrying Silver Have Been Discovered on the Surface

And all the property should need to bring it to the shipping point is some development work.

The property has been completely paid for with stock of the company, and not one dollar is required except for development purposes.

Just about a year ago, as you know, a block of stock of the Foster Mine, a close neighbor to The Silver Mountain, was offered to the public for 30 cents per share in order to raise money for development work. You know also that this stock has sold since for over \$4.00 per share and can be sold to-day to yield an immense profit to the original purchasers.

BUT REMEMBER it is the man who bought the stock when first offered who made the most money. NOT the man who waited until it reached somewhere near its real value. Please remember the above and read the following offer:

THE SILVER MOUNTAIN CO. IS PREPARING TO COMMENCE OPERATIONS ON ITS PROPERTY ON A LARGE SCALE.

And needs some working capital, consequently the directors have decided to offer for public subscription a small block of stock at

A SPECIAL PRICE OF

## SIXTY CENTS PER SHARE

Cash with subscription. This is the first and only allotment which will be offered to the public at this price. SUBSCRIPTIONS FOR ANY NUMBER OF SHARES WILL BE RECEIVED UP UNTIL NOON, ON THE 15TH DAY OF MARCH, 1907, and the directors reserve the right to refund all over-subscriptions as soon as the necessary amount has been subscribed. Subscription will be accepted according to the order in which they are received, whether by wire or letter, and may be sent direct to the secretary of the company, 95 Sparks Street, Ottawa.

If you have any faith in Cobalt you will get some of this stock and get it at once, for to-morrow may be too late. Opportunities like this only come once. We believe if you know anything about Cobalt, we have said enough, and if you want to learn more, we will be glad to tell you all we can.

Send in your wire for reservation of stock, and your subscription to

## The Cayuga Murder Case.

### Mrs. Perkins Faces Charge Of Killing Her Husband.

**How Evidence Has Been Obtained—Witnesses Admit That Crown Attorney and Detective Asked Them to Give Testimony Which Seems Against the Accused Woman—Deathbed Scenes on Christmas Day.**

Cayuga, March 7.—At the preliminary hearing of Mrs. Mattie Perkins for the alleged murder of her husband, R. F. B. Johnston, K.C., yesterday, James Henry Wilkinson of Cayuga, a witness, to admit that Crown Attorney Murphy and Detective Greer had asked him to say that he had seen Thomas MacDonald leaving the Perkins home "dozens of times."

The witness said his testimony to the effect that he had seen MacDonald leave the house "half a dozen times, staying in one instance until 10 o'clock was voluntary evidence. Then he said he had only heard this statement.

"That's a slender thread to hang a woman on," was Mr. Johnston's comment, and a general feeling of relief was evident in the crowded courtroom.

Mrs. John MacDonald testified that Detective Greer urged her "to say up to things that were not true, but I know I didn't want to do that."

**Startling Facts Promised.**  
It was announced that startling facts would come out, and that neither I. A. MacDonald nor any member of the Curry family would be called. That the case will go to a jury seems to be secured by the appointment of George T. Blackstock of Toronto as crown counsel to conduct the trial at Cayuga on April 2.

The prisoner entered on the arm of her sister, Rosa, Roman Hinton, wearing a black hat with a large feather and a heavy veil, a long black coat and a pair of gold rimmed spectacles. She looked to be forty-five years of age. She is the mother of five children, of which she has taken events since her arrest three weeks ago.

**Tells of Perkins' Visit.**  
John D. Durrant of Canfield, leasee of the Perkins farm, was the first witness. He told how Perkins visited the farm on Monday morning, Dec. 23, the suffering severely. He admitted he had been asleep when Perkins arrived at the house, but he remembered the exact words Perkins used, although he testified that he did not see her.

John D. Durrant, the Canfield housekeeper, who was called to Perkins' bedside the day she died, testified that for seven years he had not been in the Perkins house, but he had better than Henry and Milton. He said that Perkins wrote him a telegram to William Spencer at Welland and instructed his wife to send it at once.

Henry Wilkinson said he had seen Perkins some time between December and December and always at six o'clock.

**Perkins Expected Death.**  
Mrs. John MacDonald stated she knew of Perkins' sickness on the Sunday prior to his death, but was not present when the prisoner died and told her.

Henry Perkins at 7 o'clock on Christmas morning, three hours before he died.

Mrs. Perkins had left the room for a bottle of medicine and Perkins told her he would not get better. The medicine was not given, Perkins having been attacked by another spasm.

After that, continued the witness, Perkins asked me to take hold of his hands and asked his wife to raise the window. She did so and went over to the bed, put her arms around him and kissed him.

He refused to adopt a resolution recommending the importation of Canadian cattle.

**Italy Checks Emigration.**  
Rome, March 7.—The Government has forbidden the admission into Italy of foreign circulars urging peasants to emigrate, especially to the United States.

**Earl Grey on Snowflakes.**  
Quebec, March 7.—Earl Grey went for a snowshoe tramp on the Plains of Abraham yesterday, leaving for Ottawa after paying several visits.

**R. D. Gunn to Succor O'Meara.**  
Ottawa, March 7.—Judge Gunn of Orlino is slated to be the joint judge of Orlino in accordance to the late Judge O'Meara.

**DEFEND CIVIL SERVANTS.**  
Vote Down Resolution As to Sacrificing Public Interest.

Ottawa, March 7.—Hon. Jack Oliver, characterized the debate this afternoon as a "poor scandal, poorly presented," but the Government was compelled to vote down a resolution declaring that public officers should not sacrifice the public interest to private gain.

The facts which occasioned the debate came out through a law suit between the Minister of the Interior, Mr. Smith, Winnipeg immigration agent and Mr. Prichard.

The defendants were found to have been guilty of fraud in contracting to sell and convey the lands contained in a certain tract, and then hold out some of the best land.

The debate was commenced by Mr. Northrup (East Hamilton), who read from testimony to show that Smith evaded himself of his knowledge as commissioner to personally invest in lands.

Mr. Byrnes (W. Argus) thought it ridiculous that the Minister of the Interior should sit dumb when serious charges were made against a prominent officer in his department.

Mr. Northrup admitted that Smith should be removed.

Mr. Borden said that the Minister had not answered the charges, but Sir Wilfrid Laurier could see nothing in them. Smith was of course a private citizen, but that would not prevent him from making an investigation when opportunity offered.

Both's Chinese Policy.  
London, March 7.—(C. A. P.)—Several papers announce that the cabinet has accepted the invitation to the Colonial Conference.

The Standard says the cabinet is credited in London with a project to persuade Radicals to carry out their policy regarding China, in order to save the face of the Radicals in the eyes of their constituents.

**Appeal to Strathcona.**  
London, March 7.—(C. A. P.)—The owner of an Ontario mine writes The Standard that the mine is interested in Canadian mining should visit the mine and suggest a deposit of mine and suggest a deposit of mine.

**Fuel Cases Transferred.**  
Jackson, Mich., March 7.—Judge Gault transferred to the court of common pleas the case of the Commonwealth vs. John Smith and John Almer by transferred to Kalamazoo county, in view of the state of lawlessness here.

**Pope Denies Bishop.**

### TIMELY TOPICS.

### THE IMMIGRANTS.

(Boston Traveller.)

Our Uncle Sam is kindly man. He said to all who came—  
"Come hither, stay with me a while, And I'll give you a home."  
And when he asked, from under his white beard, "What money have you?" His arm they carried, and so "The song proceeded" grew.

A fine dame had Uncle Sam. Beneath a kindly smile,  
To such he gave a side, and then They bade their countrymen.  
His children cried, "Stop, father, stop!"  
What will our children do, If you their happiness give away?  
To each who asks of you?

"You're already old—just hither round,  
And each one help his brother: And when they crowd you from one place,  
Why, then just try another." So some went off to Canada,  
And some to Mexico,  
Some to the islands of the sea,  
And some to—Jericho.

And still they come—like some mad stream,  
In the temptations flow: Poor children of the Paritans,  
They surely got to go— In some museum soon you'll find—  
One from the thing above— One from the one and Indian.  
And one last buffalo.

The U. S. Government is to make another effort to break up the operations of certain padrones who have, for several years been engaged in the traffic of importing Chinese boys, who are held for long periods in what is said to amount to absolute slavery. These boys are largely employed as household servants in the United States, and are said to practically work for nothing besides their keep for the first year or so. The Greek Government will assist the United States Government in putting a stop to this species of slavery.

According to the London Times and Couter, there is a probability of fashionable England adopting the Daily Graphic in contemplating such a sensational revolution as the Sassenach in Kille mally remarks that they are deplorable garments for the month of February and March, but perhaps the idea is that they shall only be worn in the weather in which as Mark Twain once said, the human skin is the most controllable of all costumes. What it thinks they are "a step in the direction of the naked" it hinders that they give little space for the outer.

Smith had come home later than usual, and had ready-made explanation, but his wife was him to get ready for bed. He was to find what she thought of him. He endured it patiently all evening, but when he was to go to bed, he found her his wife's words. When he was almost asleep he could hear her still weeping. He was to find that she was to sleep, and awake after a couple of hours, only to hear his wife repeat "I hope all the married women don't have to put up with such conduct as this." "Annie," said Smith, "are you talking again or yet—Hesperus Weekly.

**COMET IS COMING.**  
Prof. Mattucci, of the Vatican observatory, is coming, who is neither a crank nor a fool, we reported as a humorous, profane that toward the end of this month the comet discovered by Marchetti will appear in the sky—photic center of the earth, and give us all a jar that may have serious consequences. It is somewhat surprising that they should be talking of the comet, and give us all a jar that may have serious consequences. It is somewhat surprising that they should be talking of the comet, and give us all a jar that may have serious consequences.

**Reasons For Widowhood.**  
The illustrious Isabella de Gonsaga, after losing her husband, decided to marry again. She said that if he were in constant fear of losing him; if otherwise, in constant fear of not losing him.

**Theory and Practice.**  
Dr. Johnson said, "No man in his senses, if he could get a young girl, would marry a widow." He himself married a widow many years ago.

**The Mole.**  
The mole is not blind, as so many persons suppose. Its eye is hardly larger than a pinhead and is carefully protected from dust and dirt by means of inclosing hairs.

**Marengo.**  
In the battle of Marengo 35,000 men participated, and 100,000 were killed or wounded, about 22 per cent. Napoleon thought Marengo his greatest victory. He always said throughout life the uniform he wore on that day.

**The Largest Teeth.**  
In the Valley of the Rhine the largest tooth in the world. It weighs seven pounds.

## BOVril

### Will build You up

A run down condition of the system is due to improper nourishment.

What you need is a food, not a tonic.

Beef is the most nourishing food there is and therefore the best for building up a run down condition.

But the difficulty with beef is that many people find it hard to assimilate.

BOVRIL contains all the nourishing properties of beef in a highly concentrated form, easily assimilated by the most delicate stomach.

It is a curious fact that we accept very complacently chemically, however great, which are common to the whole race. The idea, even if it were true, it would be difficult to reach to mind many important questions would be involved in the total destruction of life on the planet. It would be almost worth the while to be a spectator of the early phases of the cataclysm. It would be the most interesting spectacle man ever witnessed.

**Pugsley Names Cabinet.**  
President R. B. Macdonald, Dr. Pugsley, who was called upon to form a cabinet, announced the members of the new Government as follows:  
Dr. Pugsley, Premier and Attorney General.  
C. H. Labadie, Commissioner Public Works.  
L. F. Paris, Commissioner of Agriculture.  
J. W. C. Sweeney, Superintendent of Fisheries.  
J. R. Robinson without portfolio.  
Dr. O'Brien, Minister of Justice.

**Four Days to Cross Atlantic.**  
London, March 7.—Interviewed by The Westminster Gazette, Lord Strathmore, chairman of the new service via Newfoundland, spoke of the changes in the steamship line and train to meaner that passengers would have to take, and added:

"But if we had 50-knot steamers going direct from Southampton or Liverpool, which they have to New York, the journey could be done across the Atlantic in four days or even a little under."

**Tobacco Smoke.**  
The smoke of burning tobacco contains a mixture of carbon, salts of ammonia, hydrocyanic acid, carbonic hydrogen, three or four volatile acids, phenol, creosote and several other substances.

**St. Croix River.**  
The St. Croix river, in Maine, was named after a Frenchman by two rivers at its mouth.

**Reasons For Widowhood.**  
The illustrious Isabella de Gonsaga, after losing her husband, decided to marry again. She said that if he were in constant fear of losing him; if otherwise, in constant fear of not losing him.

**PETE'S STATISTICS.**

There was a slight mistake with the statistics that Pete gave me. I assure you, lady, began Fashan the two as the father's wife came to the door with a second set of feet. I don't know common terms. I've got some who were with me on the same round of work.

"The don't look much like an average," the lady replied.

"No, ma'am, but I'm dressed up as if I were a woman. I'm doing a world tour on a bet, and if you'll give me a little assistance I'll put you to bed."

"What's the name of the book?"

"It's a little book, lady. I've just taken some interesting notes as I go on my way, and don't mind if I'll set down as a kind of beautiful lady."

"You fellows talk such tales," she concluded, reaching up her hand to his forehead.

"That won't do, lady," he replied as he took out pencil and paper and began to write. "Scuse me while I put down as a kind of beautiful lady."

"You fellows talk such tales," she concluded, reaching up her hand to his forehead.

# IT'S ABOUT NOW.

Copyright 1907 by Rex Spafford & Sons.

It's just about now that nearly every man has the Spring Suit question on his mind.

Many will come to us without any urging on our part.

Sometimes an old customer drops in, perhaps tries a high-priced tailor, but he comes back again and tells us frankly that he likes our clothing—like the fit—the style—the fabric—the workmanship and our prices.

We have built up our reputation for selling the best of clothes by handling only the best productions of the

**World's Best Clothing Makers.**

We are just entering on our tenth year's business in Belleville and can safely say that our showing for the coming season far exceeds our best previous effort.

**HATS**

No two men look alike. It is then reasonable to suppose that the same style hat will be equally becoming to all men.

We are inclined to think not. We go upon the supposition that the

of shapes, widths of brims, heights of crowns and colorings, the greater will be the satisfaction. Accordingly we present the greatest variety of Spring Hats to be seen in Belleville. It embraces all shapes, colorings and proportions—from the conservative styles to the latest in young men's natty styles.

**They Must Pay Heavy License Fee and Find Security—Make Daily Report to Police—Several Government Measures Finally Passed—Lands For Volunteers—Free Grants and Homesteads.**

**MESSAGE FROM ONTARIO.**  
General Session, Parting Words of Counsel to the People.  
Toronto, March 10.—The session of the Ontario Legislature came to a close yesterday afternoon when the Prime Minister, Hon. J. P. White, in his capacity of acting Minister of Lands and Mines, secured the third reading and final passing of the following Government measures:  
To amend the act to provide for the apprehension of certain lands for the volunteers who served in the war and the volunteer militia who served on the frontier in 1906.  
Homesteads Act.  
Respecting the land grant to the Grand Trunk Pacific Railway Co.  
The Hon. Mr. McLaughlin then moved the second reading of the bill to amend the act respecting pawnbrokers. In so doing he said the protection of the public demanded that the business should be in the hands of honest men. In Toronto the pawnshop had not always been conducted lawfully. Pawnbrokers had loaned money to persons who were not in need of their business than second-hand goods, who were under the protection of the police. Their places could not be searched without a warrant and privileges now extended to the officers by honest pawnbrokers would become compulsory in all cases. The act Mr. McLaughlin explained provided for a license fee of not less than \$500 and satisfactory security in the sum of \$1000. The pawnbrokers must make a daily report to the police.  
Premier Endorse Bill.  
The Hon. Mr. McLaughlin then moved the bill on behalf of the Government and the Hon. Mr. White seconded it. The bill was then read a second time and it was decided to do so. The bill was given a third reading.  
The Hon. Mr. McLaughlin then moved the bill on behalf of the Government and the Hon. Mr. White seconded it. The bill was then read a second time and it was decided to do so. The bill was given a third reading.

# ITS ABOUT NOW.

ITS just about now that nearly every man has the Spring Suit question on his mind.

Many will come to us without any urging on our part.

Sometimes an old customer drops out; perhaps tries a high-priced tailor, but he comes back again and tells us frankly that he likes our clothing—like the fit—the style—the fabric—the workmanship and our prices.

We have built up our reputation for selling the best clothing by handling only the best productions of the

## AND FLOOD.

## Eighteen Lives Lost Trying To Escape From Burning Houses.

**Firemen Unable to Get Near—One Hundred Rescued  
In Boats—Leapt From Windows Into the Water—  
Pittsburg in Danger From Ice—500 Homes  
Surrounded With Water—One Third  
of City Submerged.**

Whening, W. Va., March 15.—  
Eighteen persons are known to have  
lost their lives in the fire which occurred  
at the plant of the Warwick Felt-  
ing Co. in the flooded district, Yes-  
terday.  
Because of the water surrounding  
the burned district, it was impossible  
for the fire apparatus to reach the  
scene. The firemen pressed into use  
all the boats they could get, and re-  
scued and carried the lives of those  
in the burning buildings by the  
means.  
They did heroic work, and not only  
fought the fire, but assisted in re-  
scuing many persons who were in  
the work of rescue. The crew of a  
boat that was moored near the riv-  
ers from the building sustained a yell  
and rescued about 100 persons.  
The men were offered all kinds of  
rewards for the work they had done,  
but they refused to accept them.  
Rescues for help from the fire in the  
buildings could be heard a mile north,  
where thousands of persons were in  
need of any assistance, watched the  
fire.  
Had the victims remained in their  
homes none of them would have lost  
their lives.  
No sooner had the explosion that  
started the fire occurred than people  
commenced leaping from the windows  
into the water. Five of them were  
rescued by the residents of a boat from  
Cincinnati Lumber House.  
Cincinnati, O., March 15.—A  
state of nineteen feet was reached by the  
flooded Ohio River last evening. Over-  
land travel has been stopped. The  
Baltimore & Annapolis line has been  
suspended. The Chesapeake & Potomac  
line has been suspended. The Chesapeake  
& Potomac line has been suspended.  
Many thousands have been driven  
from their homes and the suffering  
of the homeless and homeless is being  
felt all over the country. The Cincinnati  
administration has asked for authority  
to issue bonds for \$150,000 for the re-  
lief of flood sufferers.  
The city suffered a loss of about  
\$100,000 yesterday in the collapse of  
the Eighth street viaduct, over the  
flooded of the Hill Creek quarter.  
Three fifty-foot spans went down.  
Ohio River crosses suspended.  
Huntington, W. Va., March 15.—  
The Ohio River reached its highest point  
yesterday afternoon with fifty-five  
feet above flood stage. The water is  
rising three inches. After remaining at  
stationary two hours, it began to recede  
slightly. The stage reached by six-  
tenths of a foot the January flood.  
Some five hundred houses in Hunt-  
ington and Central City are surround-  
ed with water. Gallatin has been  
flooded. The Ohio River has not run  
a train line Huntington since Wed-  
nesday.

**Boards in the Main Street.**  
Pittsburg, Mo., March 15.—One  
third of the city is submerged. Thou-  
sands of people are in the water  
riding through the principal streets.  
There have been no fatalities and  
apparently little actual suffering.  
The railroad have the chief and  
passengers are quartered in hotels.  
Ice menaces Pittsburg.

Pittsburg, Mo., March 15.—The  
ice in the Allegheny River, above  
Pittsburg, Pa., and in the Ohio  
throughout. Western Pennsylvania  
is north, and the river is moving  
forward to another flood stage in this  
city.

**Preparations were being made here  
last night to prevent any serious dan-  
ger when the ice began to arrive here.**  
It was said that the ice was being  
broken by the railroads will not be fully  
broken for several days. Miles of  
track have been weakened and will  
have to be reinforced.  
The damage sustained by the rail-  
roads and the Ohio River between  
Pittsburg and Cincinnati, Pa., will  
be enormous.

**Paralytic Cramped.**  
Victoria, B. C., March 15.—A po-  
tential tragedy is reported from the  
Dell Branch, midway between Chi-  
cago and Ladysmith, Wis. Oiler,  
a well-known man, was killed by a  
train to death. The lady, a paralytic,  
was lying with her son, a child, by  
the open fire, sparks from which in-  
flamed her clothing and she was the  
unfortunate lady burned to death.

## SPRING OPENING

Wednesday, March 20th

On the above date we will hold our first Spring Opening and extend a cordial  
invitation to all to attend. We do not send out personal notices and request all the  
to accept the newspaper announcement as an invitation.  
In the Military Department which is under the management of MISS  
SYLVESTER, we have put forth unusual efforts and believe you will agree with us  
that they have surpassed any previous exhibit in this department. MISS OLIVER, the  
head of the workroom, has associated with her a splendid staff of expert trimmers and  
they have prepared an exhibit well worthy of your attention.

## The Mantle Department

The Mantle Department is showing the latest styles  
in Spring Jackets and Costumes, including a special choice

The world with all its misery.

He leaves for the world.

His home and friends forgotten.

At this time every day.

The swain against his rubber boots.

Given every nerve a thrill.

Yet foot on the day like this.

Where others are with him alone.

He's after food and thought about.

His joyous outing time.

What thought to make a former host.

With you and old day like this.

He pulls a "dinner" from his pants.

And wears his lady's vest.

There's aught can answer him true.

He thinks a very fine thing.

There's aught in the eye for him.

And joy in the eye of him.

## Two Killed in A Wreck.

### Head-on Collision Near Myrtle Yesterday Morning.

**Freight Trains Crash Together—Fireman and Brakeman Killed—Two Others Severely Injured—Eighteen Cars Off the Track, Five of Them Demolished—Engine at Head of Scrap—Mistaken Orders the Cause.**

Myrtle, March 26.—A head-on collision, in which two freight trains crashed together, killing two men and seriously injuring two more, occurred yesterday morning on the C. P. R., a couple of miles east of this city.

The dead are Fireman C. Jones and Brakeman J. H. Smith, who were caught in such a position under the debris that the freight cars they were on were not removed until nearly two hours after the collision.

The tragedy was precipitated by a slight error on the part of the conductor of the eastbound train, and by the fact that both trains were running at the time in the midst of a dense fog, to which is permitted either engineer to avoid the other.

Headed in Death.

The eastbound freight was headed by engine No. 26, and it was to this engine that Fireman Jones and Brakeman Smith escaped with slight injury. Brakeman Smith, who was in the engine cab, was seriously injured, the engine cab, was seriously injured.

The westbound train was headed by engine No. 148. Jones and Smith sustained injuries to his shoulders and arms, while the other men on the train were injured.

The trains were going at the rate of about 35 miles an hour. In the westbound freight there were 18 cars, all of which are reported to be damaged. The freight train was headed by engine No. 148.

The eastbound freight was in charge of Conductor Cook, who had been at the head of the train when it was wrecked.

At this juncture it is said that the eastbound freight, in charge of Conductor Cook, should have crossed at Myrtle.

**Bodies Mutilated.**  
An hour after the event a wrecking train was on the scene and strenuous efforts were made to put the bodies of the men on the top of the engine to keep them from being crushed.

**Unrecoverable.**  
The bodies were badly burned, bruised and mutilated. The fire that broke out immediately after the collision was extinguished, before it had made great progress.

**BOILER EXPLODED.**  
Escaping Railroad Gap At Cleveland  
Cleveland, Ohio, March 25.—Between 10 and 11 o'clock yesterday morning a freight train was wrecked in a collision with a passenger train at Cleveland. The freight train was in charge of Conductor Cook, who had been at the head of the train when it was wrecked. The passenger train was in charge of Engineer Smith, who had been at the head of the train when it was wrecked.

**A Fatal Attraction.**  
Bristol, March 25.—Benjamin Smith, a 40-year-old man, was found guilty of poisoning his wife, Mary, with arsenic. The jury returned a verdict of guilty, and the judge sentenced him to the gallows.

## Harry Thaw Replies to Army

### His Answers to Lunacy Commissioners Were Rational.

Prisoner Was Under Fire of Questions For Two Hours  
—Scope of Enquiry Limited to Thaw's Present  
Condition—Counsel Pleased With Result So  
Far—Report to Be Made by Monday.

New York, March 30.—Harry F. Thaw for two hours on Thursday sat in a rooming house at 100 West 11th street, waiting for the lunacy commissioners to arrive.

The examination was exhaustive and, when adjournment was taken last Saturday morning, no one connected with the hearing would discuss the details of the enquiry.

Thaw went willingly and confidently before the examination and, when the two-hour secret session was over, his attorneys appeared with assistants and declared they were more than satisfied with the course of the proceedings.

Butler, Attorney General, hurried from the criminal court building, desiring to discuss the committee's report.

Little Skips of Enquiry. The first part of the proceedings was the decision of the committee to limit the scope of the enquiry to the exact language of the determination of the lunacy commission, whether or not Harry Thaw was sane at the time of the shooting. To put Thaw thoroughly at ease, the commission men asked him questions to him in a conversational tone and in a casual manner, so that he was in conference with them.

Counsel Well Satisfied. It is said Thaw answered the questions easily and went into lengthy explanations.

In answer to the day's proceedings, Mr. Hartigan said:

"Harry came out with flying colors. He remembered more about the case than I did. We are confident of the outcome."

It is said the commission purposes to make Thaw answer to the questions at the beginning to test his memory of the facts of the case. To this end, it is said he was questioned about the part he took in the shooting of the juror.

The outbreak on Monday, Thaw was ready to finish his work today and is ready to report to his attorneys.

The jury will report to the court on Thursday. Thaw's attorneys are confident that he will be acquitted.

### 300 FAMILIES HOMELESS.

Serious Flood at Jacksonville and Charleston.

Ottawa, March 30.—The Hudson river is in serious flood, and 300 families are homeless in Jacksonville, Fla.

A funeral was attempted to cross the river and was swept away, with the corpse. The mourners jumped off and saved it.

The heavy rains are not improving matters, and there is fear for the safety of some of the bridges above Ottawa.

Yanaka River in Flood.

St. Francis, March 30.—The Yanaka River overflowed its banks in the lower part of the city Thursday night, through the breaking of the ice at the falls. The water was a few feet, but the damage was not great.

The ice began to move about four o'clock, and the water was a few feet, but the damage was not great.

## "Safe Lock" Shingles can't leak.

They are the original interlocking metal shingles, and the only ones that have absolutely no seal required. They are made of galvanized iron, and are not subject to rust, decay, or fire.

Remember that "Safe Lock" Shingles are nailed under the eaves, and are not subject to the weathering of the eaves.

When we first brought out the "Safe Lock" Shingles, our makers were asking about them, and were made to say that they were not subject to the weathering of the eaves.
